c. The Agency Contracts Group prepared a competitive request for proposal for engineering support relative to the Security Threat Analysis Reporting System (STARS) being developed by the Office of Security's Analysis Division. The STARS is intended to provide flexible access to intelligence reports, surveys, design data and models and other information which will permit Office of Security threat analysis to conduct in-depth threat analysis to Agency facilities worldwide. The acquisition is to result in a fixed-price term (level-of-effort) contract providing for review, analysis and recommendations relative to commercially available computer workstations, network and workstation software, computer, equipment, training definition, etc. [REDACTED]
